ABOUT ME

I'm a full-stack developer skilled in **PHP**, **Laravel**, **HTML**, **CSS**, **JavaScript**, **MySQL**, and **MariaDB**. I specialize in backend and frontend development, creating scalable web applications. My expertise includes integrating payment gateways (**Stripe, PayPal**), real-time features using **Socket.io** and **Pusher** for live notifications and chat, video call functionality, and working with the **Finicity API** for financial data aggregation. I stay updated with industry trends to deliver innovative, user-friendly solutions that exceed client expectations.

WORK EXPERIENCE

🏛 **FULL STACK DEVELOPER** – KARACHI, PAKISTAN

VENTURE VILLA – 01/06/2024 – CURRENT

Real-Time Chat
1. **Backend (Laravel) Setup for Chat:**
   - Utilize **Laravel WebSockets** or **Pusher** for real-time communication.
   - Develop a **Chat model** and migration to store messages between users (e.g., students and instructors).
   - Implement user authentication to manage who can send/receive messages.

Real-Time Video Call
1. **Backend Setup for Video Calls:**
   - Integrate a video calling service like **Twilio** for video communication.
   - Allow instructors to create virtual rooms for video calls and store room details in the database.
   - Integrate the **Twilio API** in Laravel to create and manage rooms dynamically.

Finicity API Integration
1. **Backend Setup for Financial Data:**
   - Leverage the **Finicity API** to securely aggregate financial data from various financial institutions.
   - Implement real-time data fetching to provide accurate and up-to-date financial insights.
   - Integrate the API within the Laravel backend to process and store financial information securely.

🏛 **FULL STACK DEVELOPER** – DUBAI, UNITED ARAB EMIRATES

ISKY INFORMATION TECHNOLOGY – 01/09/2024 – 31/12/2024

A full-stack investment platform built with **PHP (Laravel)**, featuring **Stripe** for secure payments and **Firebase** for mobile OTP authentication. Designed for investors, companies, and administrators, the platform enables seamless investment management,and secure transactions.

Key Features
- **Admin Panel**: Manage users, investments, transactions, and generate detailed reports.
- **Investor Panel**: Invest, track earnings, and withdraw funds effortlessly.
- **Company Panel**: Manage investment opportunities and investor relations.
- **Secure Payments**: Integrated with **Stripe** for reliable and seamless transactions.
- **OTP Verification**: Firebase-based mobile authentication for enhanced security.

🏛 **FULL STACK DEVELOPER** – KARACHI, PAKISTAN

MINDFLARE TECHNOLOGIES – 15/09/2023 – 30/07/2024

QR Code Integration
- Easy generation and scanning of **QR codes** for seamless access, improving user engagement and convenience.

Payment Method Integration
- Secure integration of multiple **payment gateways** (Stripe, PayPal, etc.), ensuring smooth, efficient transactions for users.

Theme Integration
- Customizable, responsive **themes** to enhance the user interface and provide an optimal user experience across devices.

WhatsApp API Integration
- Utilize the **WhatsApp API** for timely notifications, updates, and fostering effective communication with users.

Lead Project Management & Invitation
- Efficient management of leads with **invitation features**, streamlining project oversight and improving user interaction.

🏢 **PHP LARAVEL** – KARACHI, PAKISTAN

BRAINWAVE TECHNOLOGIES – 27/04/2023 – 30/09/2023

Admin Panel
- A comprehensive dashboard to manage car inventory, track transactions, and oversee dealer and staff activities.

Dealer Panel
- A user-friendly interface for dealers to manage listings, track sales, and communicate with the admin.

Staff Panel
- Streamlined access for staff to assist customers, manage service requests, and update car details efficiently.

🏢 **PHP LARAVEL** – KARACHI, PAKISTAN

CENTOSQUARE – 01/11/2022 – 30/03/2023

Ticket Management System
- A robust system designed to efficiently manage and track support tickets, enabling seamless communication between users and support teams. Features include ticket creation, categorization, status updates, and prioritization for streamlined issue resolution.

CERTIFICATES

15/04/2024 – 31/05/2024
HTML, CSS, and Java Script For Web Developers

I successfully completed the **HTML, CSS, and JavaScript** course at 10Pearls University, gaining a solid foundation in front-end development. This course provided in-depth knowledge of building responsive websites, dynamic interfaces, and enhancing user experience through interactive elements. It was a comprehensive learning experience that improved my skills in designing and developing efficient web applications.

You can view my certificate here: https://10pearlsuniversity.org/view-certificate/?cid=10PUC-c61cd79af7201ec007940b65a91d51899b340fc8dd96d696325539467

01/07/2025 – 11/07/2025
Mastering Laravel Framework and PHP

In the "Mastering Laravel Framework and PHP" course from Coursera, I gained comprehensive expertise in PHP development and the Laravel framework. This course covered essential concepts like MVC architecture, RESTful services, database interactions, and building scalable web applications. I also learned advanced features of Laravel, such as Eloquent ORM, middleware, and blade templating, enabling me to craft efficient, secure, and feature-rich web solutions
